

# DYNACAL™ FILM for illuminated signs

## DYNACAL™ BLACK&WHITE

BW001 (1,010mm×10m)

Black, yet Translucent.  
A simple and unique effect.

Day

Night

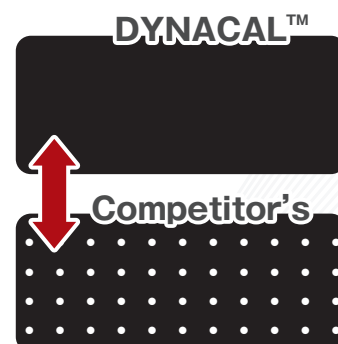

### Black yet Translucent

A truly unique vinyl film, DYNACAL Black and White Film looks black when undisturbed, yet appears as white when backlit. This effect is achieved by the film's translucent properties.

### Flat surface with no holes

DYNACAL film's surface is flat. The absence of holes gives it a clean and professional look.

Conversely, the competitor's product contains holes in its surface. In addition to their tendency to accumulate dust, they are unsightly when viewed up close.
